sc/9xf5w You can share your screens via Twitter or Facebook Lightshot allows you to search visual similar images over the Internet.. Download Lightshot for free Or drag your images here Read reviews, compare customer ratings, see screenshots and learn more about Lightshot Screenshot.. Basically, Lightshot is now working with any Chrome distribution including Mac, Linux, Chrome OS or any other OS capable of running Chrome.. Lightning fast image editor allows you to add lines, arrows and text annotations as soon as you capturing.. On the Mac very slow and laggy Setting menu is limited Good app but could be betterI've been using Lightshot for a long time but the downscale retina screens feature does not work well.. It completely blurs the screenshot and ruins the quality To avoid this I have to either zoom out 50% or downscale the images manually myself.. Please fix this Oh gosh!.. Captured images could also be saved on your local hard drive or printed What's New Ratings and Reviews See All38 Ratings Could be much betterWorks great on Windows.
